## About This Content

Many people remember launching the Unfolding Engine and being greeted with a wide sweeping vivid soundtrack. Bringing together old retro sounds and vivid synthesised landscapes. The soundtrack conveys the sense of adventure and wonder of creating your own worlds. As well as a celebration of the timelessness of the 90s video game music era.

Music artist BARCHboi, as well as creating the engine - created a lush soundscape to communicate the fantastic nature of the engine. Using sounds from old sound cards such as the Yamaha XG and the MT32, as well as synthesisers from Fm synths and the Commodore 64. Helped gave the nature of the music a timeless video game feel from an era a time ago.

The tracks are sure to give those who admire retro video game tracks an absolute delight. As well as more tracks to come.

Contains 25 tracks, in 320kbt MP3 format, including an unreleased album of tracks never before heard by the public.

Tracks including the theme song of the Unfolding Engine.
